

Thank you Anne and John for your kind words and confidence in me and thank you all for choosing me to be your candidate for Village Trustee.

I have lived in Westchester my whole life, having spent the last 18 years living in the VOL, and the last 30 in the TOM.

During that time, I have reaped the benefits of living in this incredible community. I earn my living here as a real estate attorney.

AND My children, Alex and Liz, were educated in the Mamaroneck public schools.

I enjoy the library, and the many recreational, shopping, and social opportunities available here.

I have always tried to contribute to the community, working at Chatsworth School on the PTA and serving as Chair of the BAR

[Board of Assessment Review] in the TOM since the mid 90's.

My family and I have enjoyed a multitude of benefits from living in this Village and it is only appropriate that I give more in return.

Now that my children are on their way, I have decided to **step up** and devote more time and energy to serving the community which has **served my family so well.**

I am impressed by the quality of work and dedication of the Trustees in the Village and I want to join them.

I understand and appreciate that the Village faces great challenges, particularly in these economic times.

I look forward to working with all the residents of the Village to find solutions to these problems, so that we can preserve those aspects of this community that make it so special, while seeking ways to improve what we have by providing services efficiently to the citizens **now** so Larchmont will continue to thrive into the future

Thank you
